

Team

Wishes you all

A Very Happy and Prosperous New Year 2015

"Big Thank You For Your Patronage"

Message from IVF centre 2015

DR. SHARDA JAIN, a Medical teacher par excellence, after teaching for 2 decades in two premier institutes of country (PGIMER, LHMC) started Lifecare Centre in 1990 with the commitment to make it number one clinic in Gynae care in Delhi/NCR .

It is already a **Centre of Excellence** for GYNAE Office Procedures, **ART** and Laproscopic

surgeries. LifecareIVF ,a unit of Lifecare Centre, is our second IVF centre which was started by our team in 2012, first being PII which has been taken over by Pushpanjali Crosslay Hospital 2012.

We are 7 directors Dr. Sharda Jain / Dr. Jyoti Agarwal / Dr. Aruna Saxena / Dr. Jyoti Bhaskar / Dr. Sushma Ved / Dr. Abhishek Parihar & Brig R.K. Sharma is our Mentor

LifecareIVF has been conferred **"STAR CENTRE"** status of Training of Doctors in ART by Delhi Gynaecologist Forum. We run three world class courses in ART namely:

1. Certificate course in IUI (2 days) *****
2. Introductory course in IVF-ICSI and Embryology(2 weeks) *****
3. Certificate course in Ultrasound for Infertility-IVF.(1 weeks) *****

The demand and rating of these courses is sky rocketing.

Our Inspiration is our Teacher and Mentor, our Project Director Dr. Sharda Jain who believes **"Knowledge and Skills are meant for sharing. The more you share, the more confident and capable you become in respective fields."**

LifecareIVF has given over **750 BABIES** so far by first associating with Dr. Anup Gupta and through our IVF centres. **Our aim is to bring modern technology within reach of everybody.** We have broken the myth that **"ART treatment is expensive and meant for only the rich"**

We have developed cost effective protocols and packages and made viable alternatives like Third Party reproduction. We have reduced the profit margins and made a Lifecare

Foundation for the subsidized care for the needy. We have kept “Take Home Baby rate” as the ultimate end point of successful IVF Treatment.

We run successful

Surrogacy Programme

since 2012

You will be happy to know facilities of PGS/PGD have started at our centre

(1st in East Delhi to get Govt. Approval)
